- (AR)** مهم، احتفظ به للرجوع إليه في المستقبل: اقرأه بعناية.
-

Product is NOT INTENDED for the following:

- As load bearing support for a building, structure, heavy objects or swings.
 - Used in structures that trap wind, rain or snow that would create extra load on the product.
- Accumulated snow must be removed from roof.

DO NOT climb or walk on roof for any reason.

Wear gloves to avoid injury from possible sharp edges of individual elements before assembly.

During installation, follow all safety warnings provided with your tools.

Some structures may require two or more people to install safely.

Check for underground utilities before digging or driving stakes into the ground!

It is important during assembly to closely follow the instructions, complete the assembly on a solid level surface and that you follow the instruction to square up, level and anchor the structure, this will reduce the gap at connections during assembly.

Check that you have all the components and appropriate tools listed in this booklet before starting assembly.

Remove all fittings from their plastic bags and separate them into their groups.

Keep children and animals away from the work area; small parts could pose a choking hazard. Make sure you have enough space to lay out the parts before starting.

Do not stand or put weight on the component parts during assembly, this could cause damage.

Do not assemble or dismantle during strong winds.

Follow all safety and fire precautions when in or near this pergola.

Take care when dismantling the pergola. Follow the assembly instructions in the reverse order and do not force the frame.

Ensure all parts of the pergola are completely dry before repacking.

The roller shutter of this pergola is not fire proof.

MAINTENANCE

Regular maintenance will not only help to keep a long durability but is also important for your own and the safety of other people.

- ♦ Examine the bolts and nuts once in half a year, fasten them if loose or lax.
- ♦ Stop using the pergola immediately if it has been damaged or it is not tightened properly. Please contact an authorized service centre for repair and if you have any further questions.

Normally it is not necessary to lubricate moving parts of the pergola. However, if it will become necessary one day, e. g. because of abnormal noise or because extracting is difficult, do only use lubricants that can be used for plastic materials, do not use lubricants that are based on petroleum.

Use a straw attached to the spray nozzle.

CLEANING

A mild spray cleaner or water/detergent mixture may be applied to the frame to clean it. Wipe dust off with a damp cloth. Do not use aggressive detergents e. g. to clean oil residues.

DISMOUNTING

When you don't want to use the pergola anymore or if you want to dispose of it one day you have to demount it.

Attention! At least four healthy adults are needed for this step.

- ♦ Follow the mounting instructions in reversed order to dismount the pergola.

Attention! Safety hints and instructions have to be followed for dismounting as well.

DISPOSAL

Do not dispose this pergola with other household wastes. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling. Dispose packing materials according to local guidelines.
